

Charity Business has been developed from within the sector to support and inspire charities to achieve more. We offer charities and not-for-profits financial outsourced and consultancy services and products which help them to focus their attention and funds on their core objectives.

On average Charity Business has been able to save organisations 40% on their total Finance Function Cost.

Financial Outsourcing

Rather than bearing the cost of employing a full finance team, you can contract the running of the function or process to our team. We work in partnership with you to manage everything from processing invoices for payment through to managing your outstanding debt whilst providing timely high quality reports. This will relieve the pressure of dealing with time consuming supplier queries and cash flow as you will have a team of fully trained finance staff to do it for you. In addition, we have the ability to offer epayment solutions such as our credit & debit card and chip & PIN facilities to help save on fundraising costs and increase the speed of getting your money into your bank!

Consultancy

Our NCVO approved consultancy services can cover a variety of areas from reviewing and improving aspects of financial management, developing strategic plans to assessing the skill base of your management and Trustees.

Investment Advisory

Our investment advice service has been specially developed for the charity sector, to meet the specific investment needs that charities face. We are different from other investment advisors as we work to ensure that both the investment strategy and corresponding policy underpins your charity's main strategy. We work closely with Trustees providing guidance through the maze of different investment management offerings, and help them find the right solution from the whole investment market.

Education & Training

Charity Business provide workshop style sessions to include combined lecturing, training session activities, group work and individual work encouraging participants to ask questions, debate issues and challenge the norms. This way the participants get the most out of the session provided by trainers with a wealth of sector experience.

Visit our website to understand more about how we can assist you and your organisation. Call 01793 554204 for a no cost no obligation discussion or meeting to understand better how we can save your time and money.
