

## **Chip & Pin Solutions**

If you wish to take card payments where the card payer is present (fundraising events, retail outlets, etc) chip & pin is the ideal solution. It is available either as a permanent or temporary solution. The terminals can either be wireless, providing the ability to roam with the device, or with a hard wired connection to your telephone line.

### **We have three set up options for Chip and Pin terminal set up:**

#### **1. For charities that wish to hire a terminal on a temporary basis, a wireless device is sent out for the period required.**

##### **What you receive?**

- You will receive a wireless chip and pin enabled terminal, a £50 hire fee is charged.
- User guide is provided – it is simple and easy to use, no training required.
- You can process all your debit and credit card transactions through the terminal.
- The funds arrive in your bank account between 7 to 10 working days.

#### **2. For charities that will process £100,000 or more per year.**

##### **What you receive?**

- You will receive a FREE hard wired chip and pin enabled terminal. No rental charges at all.
- All installation and training is FREE \*
- All on-going support and maintenance is FREE
- You can process all your debit and credit card transactions through the terminal
- You can share your existing telephone line, so no additional costs are incurred
- You print your daily transaction reports off the terminal
- The funds arrive in your bank account between 7 to 10 working days.

#### **3. For charities that will process less than £100,000 per year.**
